

THERMOSET[®]

Help Rev Up Metabolism, Control Stress, and Turn Down Hunger for a Trim & Fit Body*

- Helps reduce cravings and excessive hunger*
- Supports healthy GLP-1 levels*
- Promotes fat burning and muscle building*
- Supports healthy blood sugar and cortisol levels*
- Boosts energy*
- Resets thermogenesis to jumpstart metabolism*
- Wards off belly fat*

One of the most challenging aspects of weight loss is not giving in to the urge to eat every refined carb in sight. Stress eating also is a problem when you're on a weight management program. That's why DaVinci[®] Laboratories created Thermoset[®], a vegetarian weight management supplement formulated to manage hunger, soothe away stress, and increase the fat-burning process in the body known as thermogenesis.*

Control Your Appetite with a GLP-1 Boost*

Thermoset[®] ingredients like green tea, *Theobroma cacao* whole fruit extract, and corosolic acid found in Banaba, all help to support levels of glucagon-like peptide 1 (GLP-1).* GLP-1 is a hormone produced in the intestines that controls appetite and maintains healthy blood sugar. Raising GLP-1 levels supports healthy blood sugar and stops you from craving unhealthy foods.* Thermoset[®] also contains *Hoodia gordonii*, which acts on nerve cells in the brain that sense glucose levels, making you feel full, faster.* Chromium polynicotinate is included to support blood sugar levels and help manage hunger.*

Burn Fat, Stay Slim*

Green tea, *Theobroma cacao*, Guarana seed, and black pepper in Thermoset[®] support fat and calorie burning and build lean muscle mass in the body.* Chromium promotes healthy metabolism while Guarana, which naturally contains caffeine, helps the body burn fat and calories.* *Theobroma cacao*, *Eleutherococcus senticosus*, and black pepper boost energy to increase motivation to get active.* By improving fatty acid metabolism, Thermoset[®] also helps improve mental clarity and feel better overall.*

Shed Pounds Effortlessly When Stress Hormones Take a Back Seat*

Feeling stressed leads to an increase in the body's main stress hormone, cortisol. Excessive levels of this hormone can undermine your weight loss goals. Cortisol contributes to weight gain, especially around the waist and face. It can even cause your blood sugar levels to skyrocket. Being under stress can also lead to stress eating, where you feel tempted to indulge in comfort food as a way to relieve tension. Ingredients in Thermoset[®] such as *Eleutherococcus senticosus* and a component of green tea known as L-theanine (from Suntheanine[®]) soothe away everyday stress by helping to lower cortisol and putting the mind into a more relaxed state.*

Thermoset[®] is recommended for:

- Weight management programs that help increase GLP-1 levels*
- Promoting lower caloric intake through a sense of fullness and fewer cravings*
- Boosting metabolism*
- Helping maintain cortisol and blood sugar in the normal ranges*
- Helping to reduce fat tissue, especially around the waist*
- Supporting lean muscle mass*
- Helping to fight stress-related weight gain*

Suggested Use: As a dietary supplement, take 1 capsule, 3 times daily, 30 minutes before each meal, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 90

Amount Per Serving	% Daily Value
--------------------	---------------

Chromium (as Cr Polynicotinate) 50 mcg	142%
--	------

A proprietary blend of:

Green Tea (<i>Camellia sinensis</i> L.) Leaf Extract,	
<i>Theobroma cacao</i> whole fruit Extract,	
<i>Hoodia gordonii</i> (aerial stem), <i>Eleutherococcus</i>
