

RIGHT WHEY™ CHOCOLATE

A Superior Quality Whey Protein for a Fit, Strong, and Active Lifestyle at Every Age*

- Sourced from high-quality, local Grade A cow's milk
- Derived from rBST-free cows†
- Enhances exercise recovery and lean muscle mass*
- Encourages healthy aging*
- Helps to control appetite*
- Supports the immune system*
- Promotes glutathione production and normal liver detox*

Whether you're an athlete or body builder, a senior interested in healthy aging, a weekend warrior, or someone cutting calories on a diet, supplementing with whey protein is an ideal choice. Whey protein builds muscle, supports muscle and tissue recovery, boosts energy, and promotes a healthy immune system.* DaVinci[®] Laboratories Right Whey™ Chocolate boasts the highest quality whey protein on the market, locally sourced from the green pastures of New England and New York and made from cows not treated with a synthetic hormone called recombinant bovine somatotropin (rBST).†*

Right Whey™ is a delicious, low-fat, and stevia-sweetened drink mix that also includes Fibersol[®]-2 brand fiber to keep you regular*. The whey used is sourced from Grade A milk, the highest quality milk grade available. It's gluten-free, soy-free, and vegetarian-friendly.

Stay at the Top of Your Game*

Whey protein is rich in branched chain amino acids (BCAAs), which benefit muscles and provide energy directly to muscle tissue.* The body needs higher amounts of branched chain amino acids during and following exercise.* Whey should be taken within one hour or less after a workout or athletic competition to aid in exercise recovery.*

Reach Your Body Weight Goals*

Right Whey™ is a great addition to any weight management program, because whey protein helps promote lean muscle mass, instead of fat mass.* What's more, Right Whey™ can be used as a source of energy and to reduce appetite.* Many people find they eat less at mealtime after using Right Whey™ as a mid-morning or mid-afternoon snack.*

Support the Immune System and Detox*

Whey protein naturally contains precursors for glutathione production. Glutathione helps defend the body against free radicals, molecules that can challenge or weaken the immune system.* Glutathione is essential for liver detoxification.* Natural protein fractions in whey protein such as alpha-lactalbumin and immunoglobulins help strengthen the immune system.*

Right Whey™ is recommended for:*

- Athletes*
- Weekend warriors*
- Muscle building*
- Seniors interested in healthy aging*
- People who are on a diet*
- Daily immune support*

Suggested Use: As a dietary supplement, mix 36.4 g (approximately one heaping scoop) daily in 6-8 ounces of water, milk substitute or your favorite beverage, or as directed by your healthcare practitioner. For best results, serve cold and use shaker or blender.
