

ENZ-FLAME[™]

A Joint Health Formula That Helps Keep You Comfortable and Active*

- Supports healthy joints, such as the neck, hips, or knees*
- Promotes lubrication around joints*
- Maintains comfortable joints and muscles*
- Encourages a calm immune response*
- Enhances optimal range of motion and flexibility*

ENZ-FLAME[™] is a proprietary blend of 13 dietary ingredients that work in tandem to provide unparalleled support for your body's recovery following moderate to intense physical activity, occasional discomforts, and the wear and tear of everyday life.*

Balances the Immune System Around Joints*

Cetyl Myristoleate Complex (CMO) is a group of fatty acids that support the lubrication of cell membranes, which can become damaged and rigid from everyday wear and tear.* CMO also supports production of prostaglandins that influence joint comfort.* Ginger root also helps with prostaglandin management by supporting enzymes that are metabolized by arachidonic acid, a contributor to joint discomfort.*

Boswellia from the *Boswellia serrata* tree has been used in Ayurvedic medicine for thousands of years. Boswellia promotes joint comfort via management of prostaglandins.* In addition, it blocks the enzyme that produces leukotrienes, another source of discomfort.* In ENZ-FLAME[™], Boswellia works synergistically with Curcumin to manage leukotriene and prostaglandin levels.*

Neutralizes Free Radicals for Healthier Joints*

Oxidative stress is part of normal daily life. But when free radicals overwhelm the body's ability to remove them, they can harm healthy cells. ENZ-FLAME[™] keeps joints healthy with plant-derived free radical scavengers such as Curcumin, Quercetin, Luteolin, and Rutin.*

DMG (dimethylglycine) is an all-around support for healthy joint metabolism.* It protects against free radicals, balances the immune system, boosts cellular energy, and much more.*

Keep Your Joints Comfortable While Staying Active*

Cayenne in ENZ-FLAME[™] contains capsaicin, which has a soothing effect on sensitive tissues.* It can be used to minimize signals to your nerves that transmit discomfort, in addition to neutralizing free radicals.*

Proteolytic Enzymes in ENZ-FLAME[™] specialize in breaking down fibrin, a tough, insoluble protein that is associated with fluid retention and tissue discomfort.* Properly regulating fibrin breakdown can help support healthy blood flow and ensure tissue and joints receive the blood, oxygen, and nutrients they need to function at their best.*

ENZ-FLAME[™] is recommended for:

- Occasional muscle and joint discomfort*
- Recovery after exercise*
- Athletes in need of additional support*
- Active lifestyles at all ages*

Suggested Use: As a dietary supplement, mix one scoop (9 g) in 8-10 oz of water and take daily, or as directed by your health-care practitioner.

Supplement Facts

Serving Size 9 grams (approximately 1 scoop)
Servings Per Container 30

Amount Per Serving	% Daily Value
Calories 35	
Total Carbohydrates 8 g	3%†
Dietary Fiber 3 g	11%†
Calcium 40 mg	3%
Sodium 10 mg	<1%
Cetyl Myristoleate (CMO) Complex 1,000 mg	*
Proprietary Proteolytic Enzyme Blend 930 mg	*
Containing Pancreatin, Bromelain, Papain, Pepsin, Protease	
N,N-Dimethylglycine HCl (DMG) 250 mg	*
Curcumin C3 Complex® 200 mg	*
yielding Curcuminoids 190 mg	
Boswellia serrata Gum Extract 200 mg	*
yielding Boswellic Acid 130 mg	
Ginger (<i>Zingiber officinale</i>) Root Extract 50 mg	*
yielding Gingerols 2.5 mg	
Quercetin (as Quercetin Dihydrate) 75 mg	*
Rutin 200 mg	*
Luteolin (from Perilla Leaf Extract) 8 mg	*
Cayenne (<i>Capsicum annum</i>) Pepper 5 mg	*
Stevia Leaf Extract 100 mg	*

†Percent Daily Values are based on a 2,000 calorie diet.

*Daily Value not established.

Other ingredients: digestion resistant maltodextrin, orange powder, natural orange flavor, citric acid, tricalcium phosphate, silicon dioxide.

Warning: Do not take this product if pregnant or nursing, on anti-coagulants/anti-platelet medications, have gallstones or gallbladder disease.
