

IMMUNO-DMG™ CHEWABLE

A Great-Tasting Way to Support Your Immune System*

- Maintains a healthy immune system*
- Builds a large variety of immune cells*
- Wards off winter and seasonal threats*
- A tasty, fruit-flavored chewable

A healthy immune system is critical to maintaining your health and productivity.* That's why DaVinci[®] Laboratories formulated Immuno-DMG™ Chewable.* This immunity supplement is incredibly effective thanks to 10 powerful ingredients—including black elderberry—each with its own unique immune-support role.* Even better, it's chewable and provides a burst of strawberry, raspberry, and peach flavor.

Stay Healthy and Productive*

Immuno-DMG™ Chewable fortifies the immune cells that do much of the immune system's heavy lifting, including antibodies, lymphocytes, macrophages, natural killer cells, B-cells, and T-cells.* With a strong army of immune cells, your defenses can ward off even the most difficult seasonal challenges.*

For example, dimethylglycine (DMG), vitamin C, and zinc promote resistance to immune threats by supporting antibody and lymphocyte production.* Larch tree (*Larix laricina*) is a time-tested source of arabinogalactans, compounds known for boosting immune-cell production.*

Maitake mushroom and vitamin D are valued for strengthening macrophages. Maitake and vitamin D boost production of natural killer cells, the body's first line of defense during immune challenges.* Purified Maitake D-Fraction[®] is a well-researched form of maitake studied in clinical trials.* It's one of the most comprehensive immune support ingredients available.*

Beta 1,3 glucans support the activation of important immune cells known as B-cells and T-cells.* Beta 1,3 glucans are derived from yeast, but have no yeast proteins in them—they're made from the cell walls of purified baker's yeast, which is free of common allergenic material.*

Astragalus, another ingredient in Immuno-DMG™ Chewable, is a Chinese herb extensively studied since the 1970s for its ability to lend a helping hand to the immune system.* Black elderberry is one of the most effective immune-supporting ingredients on the market today.* It contains powerful immune-boosting compounds known as anthocyanidins.*

Flip the Switch to Good Health*

Methylation acts as a switch that can turn gene expression on or off.* Methylation is an important part of many aspects of health, including immunity—it's necessary for immature immune cells to progress to their mature and functional state.* By supporting methylation, DMG contributes to immune function.*

Immuno-DMG™ is recommended for:*

- Supporting immune health all year long*
- Building defenses to resist seasonal challenges*
- Maintaining clear and comfortable sinuses*
- Promoting lung and throat health*

Suggested Use:

Adults (Age 18 and above): As a dietary supplement, chew 1 tablet, 2–4 times daily or as directed by your healthcare practitioner.

Teens (Ages 12–17): Chew 1 tablet, twice daily. Not to exceed 2 tablets daily.

Children (Ages 4–11): Chew 1 tablet daily. Not to exceed 1 tablet daily.

Supplement Facts

Serving Size 1 Chewable Tablet
Servings Per Container 120

Amount Per Serving	% Daily Value
Calories 15	
Total Carbohydrates 2 g	1%†
Vitamin C (as Ascorbic Acid) 125 mg	
Vitamin D3 (as Cholecalciferol) 6.3 mcg (250 IU)
