

GLUCOSYNERGY[™]

7 Star Ingredients for Optimized Blood Sugar*

- Helps support blood sugar within the normal ranges*
- Helps maintain healthy energy levels*
- Promotes healthy insulin sensitivity levels*
- Encourages healthy weight management*
- Helps the body keep glycation from excess glucose within normal ranges*
- Helps defend against free radicals*

Maintaining blood sugar levels already in the normal range and helping the body use insulin are essential for a long, healthy life.* Blood sugar and insulin are involved in weight management and energy to help you slim down and feel less sluggish.* What's more, normal blood sugar and insulin levels promote cardiovascular, kidney, nerve, and eye health.* DaVinci[®] Laboratories formulated GlucoSynergy[™] to help maintain these aspects of metabolic health.* It contains several powerful nutrients and botanicals including a special niacin-bound chromium picolinate as well as bitter melon (*Momordica charantia*), Cinnulin PF[®] (cinnamon), alpha-lipoic acid, *Gymnema sylvestre*, Banaba (*Lagerstroemia speciosa*), and vanadyl sulfate.

Help Keep Blood Sugar in the Healthy Range*

GlucoSynergy[™] contains Cinnulin PF[®], a water-soluble cinnamon extract that supports healthy glucose management and contributes to blood flow.* GlucoSynergy[™] also contains *Gymnema sylvestre*, which helps help maintain healthy blood glucose levels.* Bitter melon extract promotes glucose transport and use by the cells as well as balancing liver glucose release.* Banaba is another phytonutrient that can help maintain healthy blood sugar and support glucose transport in cells.* With an impressive 100 mg of alpha-lipoic acid per capsule, GlucoSynergy[™] can form the foundation of any blood sugar support program.* Alpha-lipoic acid helps to normalize blood sugar and promotes insulin sensitivity in the normal ranges.* It can help inhibit glycation and re-generates important antioxidants like vitamins E, C, and glutathione.*

Support Insulin Response*

GlucoSynergy[™] is formulated with ingredients known for insulin support.* For example, ChromeMate[®] brand Chromium Polynicotinate is a niacin-bound chromium complex identified as being the active Glucose Tolerance Factor responsible for proper insulin activity at the cell membrane.* Other ingredients that help maintain a healthy insulin response include vanadyl sulfate, *Gymnema sylvestre*, Banaba, and Cinnulin PF[®].*

Help Maintain GLP-1 Levels*

Glucagon-like peptide 1 (GLP-1) is a hormone secreted by intestinal cells that's involved in blood sugar and weight management. Ingredients like cinnamon not only promote a feeling of fullness after eating, they also support balanced levels of GLP-1.* Bitter melon is also thought to exert its effects on blood sugar and insulin in part by helping with GLP-1 production.*

GlucoSynergy[™] is recommended for:*

- Helping maintain blood sugar and insulin in the normal ranges*
- Burning fat and staying slim*
- Heart health*
- Sharp vision*
- Kidney health*
- Cognitive function*
- Healthy aging*
- Fighting everyday cellular wear and tear*

Suggested Use: As a dietary supplement, take one capsule with a meal, 1-3 times daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
Chromium (as Cr. Polynicotinate) [†] 200 mcg	571%
<i>Gymnema sylvestre</i> Leaf Extract 200 mg	*
yielding Gymnemic Acid 50 mg	
Cinnulin PF [®] (Cinnamon Extract) 125 mg	*
Alpha-Lipoic Acid 100 mg	*
Bitter Melon (<i>Momordica charantia</i>) Extract 80 mg	*
yielding Charantin 0.4 mg	
<i>Lagerstroemia speciosa</i> L. (Banaba) Leaf Extract 50 mg	*
yielding Corosolic Acid 0.5 mg	
Vanadyl Sulfate 5 mg	*

* Daily Value not established.

[†]ChromeMate[®] brand niacin-bound chromium.
Other ingredients: hypromellose (capsule), microcrystalline cellulose, vegetarian leucine.

Warning: This product should only be used with careful monitoring of blood sugar levels and in consultation with your healthcare practitioner. If pregnant or nursing consult your healthcare practitioner before taking this product.
