

# D-MANNOSE COMPLEX

## Optimize Urinary Tract Health and Digestion with This Tasty Drink Mix\*

- Keeps the urinary tract healthy\*
- Supports beneficial bacteria\*
- Maintains intestinal regularity\*
- Promotes immune system health\*
- Delicious stevia-sweetened drink mix

D-Mannose Complex is an ideal choice for keeping your urinary tract healthy.\* DaVinci<sup>®</sup> Laboratories formulated this tasty, stevia-sweetened drink mix to keep your kidneys and bladder at peak performance.\* It nurtures both urinary and digestive health and supports a healthy immune system.\* This urinary tract support is important after menopause, when vaginal changes may impact urinary health.\* In elderly people, supporting the urinary tract is especially important for avoiding temporary lapses in cognitive function.\*

### Maintain a Comfortable Urinary Tract\*

D-Mannose, the star ingredient in D-Mannose Complex, stops unwanted substances from sticking to the urinary tract walls.\* D-Mannose is a healthy sugar that goes directly into the bloodstream from the kidneys to the bladder, where it can go to work fast, supporting optimal urinary tract health.\*

This formula also includes cranberry juice powder, so you can benefit from this powerful urinary-health ingredient without ingesting all of the unhealthy sugar in many commercial brands.\* Cranberry juice acidifies the urine and cleanses the urinary tract of unwanted substances.\* Probiotics like *Lactobacillus acidophilus* can keep the urinary tract and vagina healthy.\*

### Keep Yourself Regular\*

D-Mannose Complex nourishes friendly bacteria with prebiotics and probiotics. The result? Better urinary tract health and fewer bouts of occasional constipation or diarrhea.\* This formula supplies the body with two special types of fiber: FOS and Fibersol<sup>®</sup>-2. Because these fibers are soluble and less dense, they don't cause bloating and gas like other fiber products.\* A non-dairy probiotic blend containing *Lactobacillus acidophilus*, *L. casei*, *Bifidobacterium breve*, *Streptococcus thermophilus*, and *B. longum* boosts gut and urinary tract microbiota.\*

### Promote a Healthy Immune System\*

Make sure your urinary tract stays healthy, with olive leaf extract in D-Mannose Complex.\* Olive leaf helps balance the microbes in the urinary and gastrointestinal tracts.\* It supports your own protective immune cells, called phagocytes, while leaving beneficial bacteria unharmed.\*

### D-Mannose Complex is recommended for:

- Urinary tract systems in need of extra support\*
- Occasional urinary tract discomfort in elderly and postmenopausal women\*
- Microbial imbalance in the urinary and digestive tracts\*
- Occasional constipation or diarrhea\*
- Daily urinary health support alternative to sugar-sweetened cranberry juice\*

**Suggested Use:** As a dietary supplement, mix 5.6 g (approximately 1 scoop) in water, one to three times daily, or as directed by your health-care practitioner.
