

BERBERINE FORCE

Cardiometabolic Health Made Easy with a Boost of GLP-1*

- Helps you stay slim*
- Helps maintain healthy blood sugar levels*
- Increases levels of GLP-1*
- Supports cardiovascular health, cholesterol, and homocysteine balance*
- Promotes a healthy gut microbiome*

Remaining lean and trim is a struggle for many who want to keep the pounds off. Helping maintain blood sugar and raising levels of glucagon-like peptide 1 (GLP-1) are both popular ways of managing weight.* DaVinci[®] Laboratories has created a formula that emphasizes both of these approaches.* It's called Berberine Force, and it's formulated for overcoming weight management challenges and supporting metabolic health, so you can stay slim while keeping your heart healthy.*

Naturally Boosts GLP-1 Levels to Stay Slim*

Berberine is a botanical known to help the body generate GLP-1.* Raising levels of the hormone GLP-1 is a popular approach for helping to balance the appetite and maintain a healthy weight.* Berberine protects and promotes intestinal cells that make GLP-1, leading to more release of GLP-1 in the digestive tract.*

Berberine Force also contains LeucoSelect[®] Phytosome Grape Seed Extract (*Vitis vinifera*), an easily absorbed form of this botanical.* Unhealthy diets can lead to a reduction in GLP-1, but grape seed extract boosts production of GLP-1 even when the diet isn't ideal.* Due to its ability to increase GLP-1, grape seed extract increases a feeling of fullness after eating.*

Supports Healthy Blood Sugar*

By raising GLP-1 levels and supporting the gut microbiota, berberine helps stabilize blood sugar.* Likewise, berberine supports healthy secretion of the hormone insulin, which also has benefits for blood glucose.* Using berberine to support blood sugar is a common practice in Asian countries, and today its use is growing around the world because of the scientific evidence backing it up.*

Promotes Cardiovascular Wellness*

Berberine Force contains ingredients that help maintain cardio health.* Berberine and folate help maintain healthy levels of homocysteine, an amino acid that can damage the cardiovascular system if left unchecked.* Berberine Force offers the active and well-absorbed form of folate (L-methyltetrahydrofolate), which supports cognitive function, digestive comfort, and may even help with insulin sensitivity and blood sugar balance.* Berberine also supports metabolic health through blood sugar support and helps maintain cholesterol within the normal ranges.* R-Alpha lipoic acid supports normal blood pressure and triggers the production of high-density lipoprotein (HDL) cholesterol, the "good" cholesterol.* It also helps maintain blood sugar and defends the body from free radicals.*

Berberine Force is recommended for:*

- Weight management*
- Maintaining balanced blood sugar and insulin*
- Heart health*
- Blood pressure and cholesterol levels in the normal ranges*
- Normal homocysteine levels*
- Imbalanced gut microbiota*
- Free radical imbalances common with aging*

Suggested Use: As a dietary supplement, take 1 capsule, twice daily with food, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
Folate (as L-Methyltetrahydrofolate Calcium) 200 mcg DFE	50%
Berberine (as Berberine HCl) 500 mg	*
LeucoSelect [®] Phytosome (Grape Seed [<i>Vitis vinifera</i>] Extract / Phosphatidylcholine Complex) 50 mg	*
R-Alpha Lipoic Acid 25 mg	*

*Daily Value not established.

Other ingredients: hypromellose (capsule), microcrystalline cellulose, vegetarian leucine.

Contains: Soy.

Warning: Do not take this product if pregnant or nursing.

Caution: If taking p450 drugs, consult your healthcare practitioner before taking this product as Berberine may reduce the effectiveness of these drugs.
