Tonalin® -CLA

For reducing body fat *

- **A dietary supplement to support weight management and healthy cortisol function.***
- **Tonalin®-CLA** is the patented form of CLA that is proven to be effective in increasing lean muscle mass and decreasing fat.*
- Tonalin® brand CLA (Conjugated Linolenic Acid) helps the body metabolize existing fat deposits.* This fat then returns to the blood stream where it is used as energy by muscle cells and the liver.* **Tonalin®-CLA** is a great way to reduce fat and increase lean muscle mass safely and effectively.*
- **Recommended for:**
 - Maintaining blood glucose and cholesterol levels within normal ranges*
 - Weight Management*
 - Energy and improved muscle mass for Weight Lifters/ Body Builders*
- **Tonalin®-CLA** is completely natural and does not contain any stimulants or artificial ingredients.
- CLA reduces body fat and tones muscles by decreasing the ability of fat storage cells to take dietary fats from the bloodstream.* Existing fat cells shrink and new fat cells are prevented from forming.* In addition, Tonalin® boosts metabolism and improves the breakdown of fat in muscle cells for energy.* The result is a better appearance by decreasing fat and increasing lean muscle*.
- **Tonalin®-CLA:**
 - Reduces ability of fat storage cells to take dietary fats from the bloodstream.*
 - Increases breakdown of fat in muscle cells for energy.*
 - Increases metabolic rate to burn fat for energy more quickly.*
 - Supports decreased fat accumulation in the abdominal area.*

- **Studies have shown CLA:**
 - Supports blood glucose levels within normal ranges.*
 - Supports cholesterol and triglyceride levels within normal ranges.*
 - Has no adverse side effects.*
- Each softgel contains 1,000 mg of Safflower oil, which yields 72-82% CLA (and other monounsaturated acids) per softgel.

Supplement Facts

Serving Size: 1 Softgel

Amount Per Serving

Calories	15
Calores from Fat	15
Total Fat	1.5 g
