

ADK GUMMIES

A Great-Tasting Trio of Vitamins for Bone, Immunity, and Cardio Health*

- Supports strong and resilient bones and teeth*
- Optimizes calcium metabolism*
- Promotes cardiovascular health*
- Helps maintain immunity*
- A healthier gummy that's free of sugar, artificial dyes, and unnecessary fillers*

Vitamins A, D, and K are three of the most important nutrients for health. Yet, most people aren't getting enough from diet alone, and our modern indoor lifestyle leaves many people starved for vitamin D.* In recognition of the importance of these three nutritional powerhouses, DaVinci[®] Laboratories formulated **ADK Gummies**, a great-tasting, pineapple-flavored supplement. It's sweetened with allulose, a naturally occurring sugar substitute that supports healthy insulin sensitivity, blood sugar, and weight management.*

Supports Strong Bones and Teeth*

DaVinci[®] Laboratories **ADK Gummies** provides a trio of vitamins that build healthier, stronger, more resilient bones and teeth.* Vitamin D oversees the absorption and use of calcium by the body and bones.* The vitamin K2 in ADK Gummies is menaquinone (MK-7), a special form important for normal bone formation.* Vitamin K2 activates a critical protein, called osteocalcin, which transports and integrates calcium into bones.* Vitamin A supports normal development, growth, and repair of bones.*

Promotes Cardio Health*

Vitamin D3 in ADK Gummies supports cardiovascular function and blood pressure within the normal ranges.* Optimal vitamin K2 ensures calcium is deposited into bones instead of arteries.* That means arteries stay soft and flexible for smooth blood flow.*

Strengthens Your Immune Defenses*

Vitamin A helps maintain immunity by keeping the mucosal barrier strong.* Vitamin D also is important for immune health.* The vitamin D receptor is expressed on the majority of immune cells, showing how important vitamin D is to the immune response.*

Helps maintain Healthy Blood Sugar*

Gummy vitamins often contain sugar and other unwanted ingredients. That is why DaVinci[®] Laboratories formulated a healthier gummy alternative, without unnecessary fillers or artificial dyes or

colors. What's more, ADK Gummies are sweetened with allulose. Unlike many other sweeteners, allulose helps maintain healthy blood sugar and insulin, supports metabolism, and aids in weight management.* Allulose is found naturally in figs, raisins, and maple syrup and is about 70% as sweet as sugar without the calories. It acts as a naturally occurring prebiotic, is keto-friendly, gluten-free, non-GMO, vegetarian, and supports dental health.*

ADK Gummies are recommended for:

- Targeted vitamin support*
- People who don't like swallowing pills
- Staying active while aging*
- Strong teeth and bones*
- Smooth-flowing circulation*
- Proper calcium distribution in the body*
- Helping defend the immune system and gut lining*
- Blood sugar support with the natural sweetener allulose*

Suggested Use: As a dietary supplement, take two gummies daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 2 Gummies
Servings Per Container 30

Amount Per Serving	% Daily Value
Calories 20
