GLUCO BENEFITS™

Bioavailable Support for Blood Sugar, Nerve Health, and Appetite Control*

- Supports healthy glucose levels*
- Helps maintain insulin sensitivity*
- Promotes nerve health*
- Aids in the defense against excess glucose (glycation)*
- Tones muscles while helping shed pounds*
- Helps maintain healthy lipid levels*
- Helps reduce excessive food intake*

Supporting healthy blood sugar often goes hand in hand with nerve health.* That's why DaVinci® Laboratories has formulated a weight management supplement that zeros in on supporting blood sugar, appetite control, and healthy nerves.* Gluco Benefits™ showcases some of the most bioavailable blood-sugar supporting ingredients like Glucevia® (*Fraxinus angustifolia*) and GlucoDox®, a combination of a *Commiphora mukul* (guggul) extract and a medium chain triglyceride (MCT) oil.* It also contains a fat-soluble form of thiamin and a bioactive form of B6 to help maintain healthy nerves.*

Helps Maintain Glucose and Insulin Metabolism*

Gluco Benefits™ goes up to bat against a trio of metabolic concerns.* Glucevia®, GlucoDox®, chromium polynicotinate, and R-alpha lipoic acid support healthy blood sugar in the normal range while helping the body use insulin.* BenfoPure® also plays a role in metabolic health.* As a lipid-soluble compound, BenfoPure® Benfotiamine is both more ready for use and more active than traditional thiamin forms.* It aids in defending the body against unhealthy molecules that have been damaged by too much glucose, known as advanced glycation end products (AGEs).* Low levels of AGEs are linked to balanced blood sugar, good health, and longevity.*

Good Health from Head to Toe*

Balanced blood sugar and insulin help to keep the legs and feet comfortable and in good working order.* Gluco Benefits™ helps promote neurological function thanks to BenfoPure® Benfotiamine, known for its support of normal nerve function.* A bioactive form of vitamin B6 (pyridoxal-5-phosphate) also is included to support nerve health.*

Promoting Healthy Lipids*

Ingredients in Gluco Benefits™, such as GlucoDox® and chromium, support cholesterol levels within normal ranges.* GlucoDox® contains guggulsterones, which support healthy lipid levels.* GlucoDox® also may control the ability of pre-fat cells to transform into fat cells, while chromium can help the body metabolize fat more efficiently.*

Preserves Lean Muscle Mass and a Healthy Appetite*

Unlike some other weight management strategies, Gluco Benefits™ helps build lean muscle mass even while you shed pounds.* It also helps reduce excessive food intake.* It's an ideal complement to weight management programs that increase GLP-1.*

Gluco Benefits™ is recommended for:

- Optimizing cardiometabolic health, blood glucose, and insulin*
- Feeling full after eating*
- Suppressing carb cravings*
- Managing weight while building lean muscle*
- Defending against age-related weight gain*
- Balancing blood lipids and fat storage*
- Healthy function and sensation in the legs and feet*
- Bioavailable B1 and B6 vitamin support*
- People on a GLP-1-raising protocol hoping to supplement it with enhanced metabolic health*

Suggested Use: As a dietary supplement, take 3 capsules daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 3 Capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Vitamin B6 (as Pyridoxal 5-Phosphate) 55 mg	3,235%
Chromium (as Cr Polynicotinate) 1,000 mcg	2,857%
Glucevia® (*Fraxinus angustifolia*) 1,000 mg	*
GlucoDox® 200 mg	*
R-alpha lipoic acid 100 mg	*
BenfoPure® Benfotiamine 75 mg	*

*Daily Value not established.

Other ingredients: microcrystalline cellulose, hypromellose (capsule), vegetarian leucine.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

Caution: Discontinue use 2 weeks prior to surgery.
