

ALLER-DMG™ CHEWABLE

A Great-Tasting Way to Support Health During Seasonal Challenges*

- Keeps sinuses comfortable and healthy*
- Maintains histamine levels within normal ranges*
- Supports skin health during exposure to environmental challenges*
- Balances the immune response*
- Supports easier breathing*
- Tasty alternative to swallowing pills

Enjoy the outdoors even during your most sensitive seasons with DaVinci[®] Laboratories' Aller-DMG™ Chewable.* We formulated this immune-calming supplement with five powerful ingredients: quercetin, bromelain, Perilla seed extract, vitamin C, and dimethylglycine (DMG).* This unique formula combines all of these well-researched nutrients into a great-tasting orange-and-vanilla-flavored chewable tablet to help balance the immune system and maintain healthy sinuses, skin, and lungs.*

Kick Histamine to the Curb*

Histamine is the main culprit behind your seasonal responses. Aller-DMG™ contains ingredients, like quercetin, that help maintain histamine levels in the normal range.* Quercetin also ensures cells are strong, encouraging them to have a proper reaction to irritants.* Bromelain boosts the absorption of quercetin, and they team up to support sinus and lung health in people with environmental sensitivities.* Perilla seed extract is also known to help with histamine support, able to keep the nose, eyes, and skin comfortable while stopping the overproduction of phlegm.* Vitamin C works with these other ingredients to regulate the production of histamine and support immunity.*

Keeps You Strong During Your Worst Seasons*

By supporting healthy histamine, Aller-DMG™ encourages proper immune and lung functions.* It supports the health of the sinuses, nasal cavity, skin, and respiratory tract after exposure to airborne irritants.* Bromelain is particularly well-known for its ability to soothe the sinuses, skin, and nasal passages.* As a protein-dissolving enzyme, bromelain can also help address excess mucus.*

Keeps You Breathing Easy*

DMG supports respiratory function by promoting circulation and the ability of lung tissues to use oxygen.* DMG also helps support immune health by defending against free radicals and playing a critical role in methylation, a process your body uses to stay healthy.*

Aller-DMG™ is recommended for:*

- Staying comfortable during pollen season*
- Soothing the eyes, nose, and lungs when exposed to airborne substances*
- Supporting skin health after encountering sensitive substances*
- Managing the immune response*

Suggested Use: As a dietary supplement, take two chewable tablets daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 2 Chewable Tablets
