

GLUTATHIONE

Setting the Benchmark for Glutathione Absorption*

- 2.5 times more bioavailable*
- Powerful support for immune health*
- Helps maintain cognitive health*
- Supports detoxification within the body*
- Encourages a healthy gut lining*
- Promotes energy and vitality*

Glutathione is the body's master antioxidant and it plays an important role in maintaining cellular health.*^{1,2} Until now, standard glutathione supplements were easily broken down and poorly absorbed.* That's why DaVinci[®] Laboratories created Glutathione with Provail[®], a glutathione supplement with 2.5 times better bioavailability than the leading competitor.* It works fast, helps to maintain your immune system, soothes your digestive tract, and helps you think clearly.*

A Revolutionary Glutathione Supplement

Glutathione with Provail[®] works better, faster, and goes deeper than regular glutathione with its impressive bioavailability-boosting technology.* Provail[®] is a structurally changed, ultra-small whey protein matrix, similar to the size of casein micelles (or protein-mineral clusters) in milk. This polymerized whey protein matrix coats the glutathione to help maintain its structure as it travels through the gastrointestinal tract.* Think of this specialized whey protein as an envelope that contains a nutrient inside of it—namely glutathione. When the protective envelope arrives in the small intestine, it opens up and releases glutathione for maximum absorption.*

A 2021 animal study published in *Molecules* by Zhang and colleagues showed that Glutathione with Provail[®] was absorbed 2.5 times better, raised blood and tissue levels of glutathione, and boosted blood antioxidant activity more than the leading brand of glutathione.*² It's so powerful that you only need 200 mg compared to 500 mg of standard glutathione.*²

In synergy with glutathione, the whey protein in Provail[®] supports musculoskeletal health, a strong gut lining, the removal of unwanted substances,^{3,4} firm and flexible arteries,⁵ and cognitive function.*^{5,6}

DaVinci[®] Laboratories' innovative glutathione delivery system has another advantage: it is a pure, clean, simple supplement.* Whey protein, glutathione, cellulose, and leucine are the only ingredients. Glutathione with Provail[®] does not contain the carriers and inactive ingredients found in other glutathione supplements. Glutathione with Provail[®] is free of hormones and gluten.

Boost the Gut-Immune System with a More Bioavailable Glutathione*

Glutathione with Provail[®] supports a strong immune system^{1,3,4} and digestive system.* As an antioxidant,¹ glutathione soothes the intestinal lining and supports a healthy inflammatory response.*⁷ This supports immune imbalance throughout the body and helps to promote a healthy gut lining and intestines.*

Think More Clearly and Stay Focused*

Higher levels of glutathione in the brain are linked to normal neuron levels and a healthy aging process.*⁸ Keeping your glutathione levels optimal means you're less likely to forget where you put your car keys.* Glutathione also can help kids and adolescents stay focused due to its important role in children's brain health.*^{9,10}

Glutathione with Provail[®] is Recommended for:

- Better, faster, and deeper glutathione delivery*
- Promoting a balanced immune system*
- Brain health and cognitive function*
- Helping to maintain concentration and focus*
- Supporting healthy gastrointestinal function*
- Heavy metal exposures*
- Healthy aging and vitality*

Suggested Use: As a dietary supplement, take 1 capsule daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 30

Amount Per Serving	% Daily Value
L-Glutathione (from Provail [®])	
Whey Encapsulated L-Glutathione	
(Reduced) 200 mg	*

*Daily Value not established.

Other ingredients: hypromellose (capsule), microcrystalline cellulose, vegetarian leucine.

Contains: Milk.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

A·D·K

Comprehensive Support for Bone, Immune, and Cardio Health*

- Supports Strong and Resilient Bones*
- Optimizes Calcium Metabolism*
- Contains the Bone-Building Form of Vitamin K (MK-7)*
- Promotes Heart Health and Immune Function*

Vitamins A, D, and K are three of the most important nutrients for health.* Yet, most people aren't getting enough from diet alone, according to a large national survey (NHANES 2007-2010),* and our modern indoor lifestyle leaves many people starved for vitamin D.

The Key To Stronger Bones and Teeth—and a Healthy Heart, Too*

DaVinci[®] Laboratories ADK provides a trio of vitamins that build healthier, stronger, more resilient bones.* Bones are constantly under construction—being built, broken down, and rebuilt. Called bone remodeling, this process keeps bones strong despite everyday wear and tear. Vitamins A, D, and K2 are essential nutrients for healthy, strong, durable bones.* These nutrients also support heart health and keep the immune system strong and healthy.*

Three Vitamins, One Powerful Formula for Bone, Cardio, and Immune Health*

DaVinci[®] Laboratories ADK is a convenient way to achieve nourishing levels of three critical nutrients.*

- **Vitamin D** – Vitamin D oversees the absorption and use of calcium by the body and bones.* Vitamin D also supports cardiovascular function and blood pressure within the normal ranges.*
- **Vitamin K2** – Vitamin K2, or menaquinone (MK-7), is a special form of vitamin K important for normal bone formation.* Vitamin K2 activates a critical protein, called osteocalcin, which transports and integrates calcium into bones.* Optimal vitamin K2 ensures calcium is deposited into bones instead of arteries.* That means arteries stay soft and flexible for smooth blood flow.*

- **Vitamin A** – Vitamin A supports normal development, growth, and repair of bones throughout life.* It also maintains mucosal immune function.* Keeping the mucosal barrier strong promotes a healthy immune response.*

DaVinci[®] Laboratories ADK supports three of the most important areas to focus on during healthy aging—bone, heart, and immune health—so you can be at your best.*

Suggested Use: As a dietary supplement, take one capsule daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
Vitamin A (as Retinyl Palmitate) 1,500 mcg	167%
Vitamin D3 (as Cholecalciferol) 125 mcg (5,000 IU)	625%
Vitamin K2 (as MK-7) 500 mcg	*

*Daily Value not established.

Other Ingredients: hypromellose (capsule), microcrystalline cellulose, vegetarian leucine.

Warning: Do not take this product if pregnant or nursing. If you have a blood-clotting disorder or are taking anticoagulant/antiplatelet drugs such as Coumadin (Warfarin), do not take this product without consulting your healthcare practitioner.

Caution: Individuals taking more than 50 mcg (2,000 IU) of Vitamin D per day should have their vitamin D levels monitored. This product is not intended for long term use and should be used under the supervision of your doctor.

TRI-MAG 300

Three Forms of Magnesium, Many Benefits for Optimal Health*

- Maintains a healthy heart and heart rhythm*
- Supports blood sugar metabolism and blood pressure in the normal range*
- Relaxes muscles*
- Strengthens bones and teeth*
- Promotes healthy sleep*
- Supports a positive mood*

Over 325 chemical reactions in the body depend on the essential mineral, magnesium. Our cells couldn't produce energy without it. Magnesium supports healthy blood sugar already in the normal range, promotes a healthy heart rhythm, and normal blood pressure.* Magnesium builds strong teeth and bones.* It even relieves occasional sleeplessness, muscle tension, and helps maintain a happy mood.* Yet, magnesium deficiency is common due to a number of risk factors.

Who Is At Risk of Magnesium Deficiency?

Nearly everyone has at least one of these risk factors for low levels of magnesium:

- Eating processed foods, which have reduced magnesium levels
- Not eating enough magnesium-containing foods such as nuts, broccoli, brown rice, spinach, seeds, tofu, and whole grains
- Eating foods grown in magnesium-depleted soils
- Taking certain medications that interfere with magnesium absorption
- Eating sugary treats, which stop the body from absorbing enough magnesium
- Poor intestinal health

Not getting enough magnesium is linked to occasional sleeplessness, everyday stress, irritability, low energy, fluctuations in blood sugar metabolism and blood pressure, to name just a few of the ways low magnesium impacts health.*

Tri-Mag 300 Boosts Magnesium Levels*

DaVinci Laboratories Tri-Mag 300 nourishes the body with three easily absorbed forms of magnesium: taurinate, glycinate, and malate. The comprehensive formula provides three chelated forms of these minerals. Chelates are organic compounds attached to a mineral to enhance absorption. This makes for a powerful 300 milligram magnesium supplement that quickly delivers this crucial mineral to every tissue in the body.*

The Tri-Mag 300 Advantage

- Provides chelated forms of magnesium for enhanced absorption*
- Contains three easily absorbable magnesium forms known for supporting the heart, bones, sleep, nerves, and a relaxed mood, as well as healthy blood sugar.*

Suggested Use: As a dietary supplement, take four capsules daily. Daily amount may be divided between AM & PM, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 4 Capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Magnesium (Mg Taurinate, Mg Glycinate, Mg Malate) 300 mg	71%

Other ingredients: microcrystalline cellulose, hypromellose (capsule), vegetarian leucine.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
