

MANGO-PLEX

Mango-Plex with Raspberry Ketone is a vegetarian, dietary supplement that supports weight management.*

Mango-Plex with Raspberry Ketone combines four ingredients (WellTrim[®] iG African Mango Seed Extract, Raspberry Ketone, Green Coffee Bean Extract and Green Tea Extract) that work synergistically to help break through weight loss barriers.*

Mango-Plex with Raspberry Ketone supports:

- Thermogenesis*
- Fat burning hormones Leptin and Adiponectin*
- Appetite control*
- Healthy blood sugar levels and reduced cravings*
- Proper fat metabolism*

About the ingredients:

- African Mango (*Irvingia gabonensis*) is a fruit found and grown in West Africa. The extract derived from the seed has been shown to support weight management through appetite suppression and increased metabolic rate.* It works to slow body fat production by supporting favorable changes in Glycerol-3 Phosphate, Leptin and Adiponectin which support reduction of the conversion of complex carbs into sugars, fat burning and hunger management.* WellTrim[®] iG is a trademarked and patented extract of *Irvingia gabonensis* that is a clinically proven ingredient that supports multi-functional weight management activity*.
- Raspberry Ketone is a compound that produces the smell in raspberries. It supports the weight loss process by supporting the body's ability to produce Adiponectin, a hormone that increases metabolism and modulates a number of metabolic processes, including glucose regulation and fatty acid catabolism.* Adiponectin is exclusively secreted from adipose tissue and supports weight management via the brain. This is similar to the action of leptin, a hormone produced in adipose tissue that increases metabolism and supports appetite control.*
- Green Coffee Bean Extract provides free radical support and also supports metabolism in order to burn a higher proportion of lipids to carbohydrates.* Green Coffee Bean Extract contains two important polyphenolic compounds- caffeic and chlorogenic acids. Caffeic acid provides a safe energy boost while being naturally low in caffeine.* Chlorogenic acid helps to slow the release of glucose into the bloodstream after a meal and reduce the absorption of dietary fat.*

- Green Tea Extract is an excellent source of potent polyphenols (bioflavonoids with healthful properties)*. Research has identified EGCG as the most active polyphenolic compound in Green Tea that supports thermogenesis (fat burning), healthy blood insulin levels and appetite control.* The Green Tea Extract used in this product is standardized to contain 70% EGCG per capsule!

Suggested Use: As a dietary supplement, take 1 capsule twice daily before a meal, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
WellTrim [®] iG (IGOB131 [®]) African Mango (<i>Irvingia gabonensis</i>) Seed Extract 150 mg *	
Green Coffee Bean Extract 300 mg	*
Green Tea (<i>Camellia sinensis</i> L.) Leaf Extract 100 mg	*
yielding Epigallo-catechin-3-gallate (EGCG) 70 mg	
Raspberry Ketone 100 mg	*

*Daily Value not established.

Other ingredients: vegetable cellulose (capsule), microcrystalline cellulose, vegetarian leucine.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
