

GLUTATHIONE BRIGHT

Smooth, Healthy Skin From Within*

- 2.5 times more bioavailable glutathione*
- Helps to maintain a smooth, healthy complexion*
- Supports healthy aging skin*
- Helps to protect the skin from sun, wind, and cold*
- Promotes an even skin tone*

Skin gets the highest load of oxidative stress when compared to all other organs in the body. Every day skin has to face unwanted free radicals made inside the body as part of normal daily living, as well as oxidative stress from outside the body, like UV radiation. Glutathione is a way to address the daily free radicals that age our skin.*

Glutathione is a powerful antioxidant¹ that naturally occurs in the skin.*² It has many uses, including helping to protect your skin from harmful environmental elements like sun, wind, and cold, as well as promoting healthy aging.*² Until now, you couldn't depend on glutathione supplements to boost your skin and body levels because they were easily broken down and may be poorly absorbed.* That's why DaVinci[®] Laboratories created Glutathione Bright with Provail[®], a glutathione supplement that's 2.5 times more bioavailable.*¹ It works fast to give you a glowing and healthy complexion.*

A Revolutionary Skin Supplement

Glutathione with Provail[®] works better, faster, and goes deeper than regular glutathione to optimize your skin health.* Provail[®] is a structurally changed, ultra-small whey protein matrix, similar to the size of protein-mineral clusters in milk known as casein micelles. This polymerized whey protein matrix coats the glutathione to help maintain its structure as it travels through the gastrointestinal tract.* Think of this specialized whey protein as an envelope that contains a nutrient inside of it—namely glutathione. When the protective envelope arrives in the small intestine, it opens up and releases glutathione for maximum absorption.*

A 2021 animal study published in *Molecules* by Zhang and colleagues showed that Provail[®] was absorbed 2.5 times better, raised blood and tissue levels of glutathione, and boosted blood antioxidant activity more than the leading brand of glutathione.*¹ It's so powerful that you only need 200 mg compared to 500 mg of standard glutathione.*¹

The Secret to Smooth Skin*

Glutathione is a skin supplement that supports the health of the body's cells, promoting healthy aging of the skin.* Glutathione Bright with Provail[®] helps to promote a clear and smooth complexion and supports healthy skin.* It can help to maintain skin texture and vitality, so you can still turn heads wherever you go.*³

A Glowing Complexion*

Glutathione helps to keep your face looking fresh and beautiful—no matter your age.*^{2,4} Whether it's cold air in the winter, pollution, or the drying effects of air conditioning in the summer, Glutathione Bright with Provail[®] can support your skin health during lifestyle and seasonal changes.*² Glutathione also is involved in the production of melanin, the pigment responsible for skin color.*⁵ By helping to maintain healthy melanin production, glutathione can help to even out skin tone and minimize dark spots.*³

Glutathione Bright with Provail[®] is recommended for:

- Helping to maintain healthy, radiant skin*
- Promoting smooth, soft, flawless skin*
- Encouraging an even skin tone*
- Helping to protect your skin against lifestyle and environmental changes*

Suggested Use: As a dietary supplement, take 1 capsule daily, or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
L-Glutathione (from Provail [®] Whey Encapsulated L-Glutathione (Reduced)) 200 mg	*

*Daily Value not established.

Other ingredients: hypromellose (capsule), microcrystalline cellulose, vegetarian leucine.

Contains: Milk

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

VEGETARIAN / GLUTEN FREE / SOY FREE
