

GARCINIA CAMBOGIA WITH CHROMEMATE[®]

A Perfect Pairing for Appetite Control and Blood Sugar Support*

- Balances appetite*
- Supports blood sugar metabolism*
- Helps maintain lean body mass*
- Aids in stopping fat storage*
- Contains highly bioavailable ingredients*

If you're craving sugary treats, pizza, potato chips, and other not-so-healthy options, *Garcinia cambogia* and chromium polynicotinate are two of your best defenses.* DaVinci[®] Laboratories has paired these two ingredients in one formula called Garcinia Cambogia with ChromeMate[®]. The supplement contains two highly bioavailable forms of the ingredients: the Citrin[®] brand of *Garcinia cambogia* extract and the ChromeMate[®] brand of chromium.* Garcinia Cambogia with ChromeMate[®] is a perfect complement to weight management strategies that promote GLP-1 levels.*

Helps Curb Appetite*

Garcinia Cambogia with ChromeMate[®] contains an extract isolated from *Garcinia cambogia*, a fruit native to India. The active ingredient in the extract is Hydroxycitrate (HCA), which helps balance appetite and reduce average food consumption by about 10 percent.* *Garcinia cambogia* encourages feelings of fullness by helping manage serotonin levels, which are related to satiety.* ChromeMate[®] also helps support a healthy appetite by reducing carb cravings.*

Supports Blood Sugar and Lean Body Mass*

Chromium supports glucose levels within normal ranges and metabolism of lipids in the body.* It also helps maintain lean body mass, which is important to people who are on a weight management program.*

Aids in Reducing Stored Fat*

HCA in *Garcinia cambogia* reduces the conversion of carbohydrates into stored fat by inhibiting certain enzyme processes.* It reduces fatty acid synthesis by approximately 40-70% for eight to twelve hours following a meal.* The result is a slender body that can turn heads.*

The Highest Quality Ingredients

ChromeMate[®] brand niacin-bound chromium is a highly bioavailable form, so it goes right to work supporting healthy appetite and glucose.* In addition, the *Garcinia cambogia* in the formula is a superior source of standardized high-potency HCA.* Every batch of Garcinia Cambogia with ChromeMate[®] is certified by independent laboratory analysis using high performance liquid chromatography so you can rest easy knowing you're getting the best quality ingredients on the market.

Garcinia Cambogia with ChromeMate[®] is recommended for:

- Weight management programs*
- A moderate appetite with fewer urges to overeat*
- Supporting glucose and insulin levels within the normal ranges*
- Staying lean and fit*
- Optimum body fat percentage*

Suggested Use: As a dietary supplement, take 1 capsule, 30 to 60 minutes before each meal with a full glass of water, or as directed by your healthcare practitioner.
