## Support Your Endocannabinoid System\* with this Great-Tasting Hemp

- High-quality, Full-spectrum Hemp Oil
- Promotes Overall Health by Nourishing the Endocannabinoid System\*
- Supports the Entourage Effect\*
- A Delicious, Convenient Hemp Supplement

What if your body had a switch that could control health? When this switch is turned on and working right, everything goes smoothly. In fact, there is such a switch. It's called the endocannabinoid system. It keeps body systems in healthy balance and it's so important to health that it's already working before birth.

### The Key to Good Health

Receptors known as CB1 and CB2 play an important role in this system, and compounds made in the body known as endocannabinoids act on these receptors. Think of CB1 and CB2 receptors as locks and endocannabinoids as keys. When endocannabinoid "keys" are "inserted" into these receptor "locks," it opens up many doors to good health.

CB1 receptors are found in the brain and participate in memory, learning, mood, appetite, and sleep. The GI tract is home to most CB2 receptors. Unfortunately, some people have an endocannabinoid deficiency. This is when the body doesn't make enough endocannabinoids. Or, it doesn't make enough CB1 and CB2 receptors. When this happens, it can lead to problems with brain function, mood, irritability, focus, sleep, and digestion.

Just like how endocannabinoids made in the body activate endocannabinoid system receptors, plant compounds known as phytocannabinoids can balance CB1 and CB2 activity.\* They can also increase the numbers of CB1 and CB2 receptors.\*

### Powerful Phytocannabinoid Support\*

Spectra<sup>®</sup> Hemp is formulated with phytocannabinoids that nourish your body's endocannabinoid system.\* Full-spectrum hemp oil in Spectra Hemp contains all of the phytocannabinoids, terpenes, and flavonoids naturally found in the hemp plant. These phytocannabinoids team up to be even more powerful than one phytocannabinoid alone. Scientists call this the "entourage effect."

Spectra<sup>®</sup> Hemp has a delicious natural orange flavor and the convenient dropper system helps you find just the right dose for hemp's optimum health benefits.\*

**Suggested Use:** As a dietary supplement, take 1 ml by dropper daily, or as directed by your healthcare practitioner. Shake well before each use.

## Supplement Facts

Serving Size 1 ml  
Servings Per Container 30

Amount Per Serving	% Daily Value
--------------------	---------------
