

### WE STAND FOR MORE BECAUSE

IT'S THE RIGHT THING TO DO.

## **METABOLIC MULTI**

# A Multivitamin-Mineral to Promote GLP-1 Release and Metabolic Health\*

- Comprehensive vitamin and mineral support\*
- Promotes the body's natural release of GLP-1\*
- Helps maintain a healthy body weight\*
- Helps manage appetite\*
- Promotes cardio, joint, bone, and eye health\*
- · Formulated with highly bioavailable ingredients\*

DaVinci® Laboratories Metabolic Multi is the perfect multivitamin-mineral supplement for anyone on a weight management program or who wants to support metabolic health.\* It is formulated with ingredients known to maximize healthy levels of glucagon-like peptide-1 (GLP-1) and promote metabolic health and energy, so that you can be lean, fit, and healthy.\*

### Maximize GLP-1 The Natural Way\*

Optimizing levels of GLP-1 has become the gold standard in weight management.\* GLP-1 is a hormone made in your intestines that plays an important role in weight management and appetite management.\* Metabolic Multi contains ingredients that promote your body's release of GLP-1 including berberine, GreenSelect® Green Tea Phytosome, curcumin, cinnamon, and resveratrol.\*

#### Maintain a Healthy Weight and Stay Slim\*

The ingredients in Metabolic Multi support a healthy weight in other ways beyond GLP-1.\* For example, Alluvia Purple Tea with GHG®, which is high in colorful plant substances called anthocyanins, improves body composition and reduces fat absorption.\* Purple tea also significantly reduces body mass index, waist circumference, and body weight.\* GreenSelect® Green Tea Phytosome also joins in to promote a healthy body composition.\*

#### Healthy Heart, Joints, and Eyes\*

Metabolic Multi is designed to help keep the heart strong and healthy.\* Benfotiamine helps to maintain healthy blood vessels, while berberine, cinnamon, R-lipoic acid, and trans-resveratrol help the body use insulin more effectively, covering all the bases in heart and metabolic health.\* A clinically researched ingredient, Meriva® curcumin, keep joints comfortable and healthy.\* Vitamin D3 and vitamin K2 as MK-7 promote strong bones.\* Lutein, lycopene, and zeaxanthin are all involved in optimizing ocular health.\*

#### Easily Absorbed\*

Metabolic Multi absorbs well and goes right to work. That's because DaVinci® uses the most bioavailable nutrients, such as active forms of folate and vitamin B12.\* Phytosome More Bioavailable® technology helps herbal ingredients pass through the gut unharmed, cross the gut barrier easily, and get to work boosting your levels.\*

#### Metabolic Multi is recommended for:\*

- Enhancing vitamin and mineral levels\*
- Raising the body's GLP-1 levels\*
- Improving insulin and blood sugar already within the normal ranges\*
- Maintaining a healthy body weight and balanced appetite\*
- Lean body composition\*
- Overall health including metabolic, cardiovascular, bone, joint, eye, and cognitive\*

**Suggested Use:** As a dietary supplement, take 6 capsules daily, in divided doses with food, or as directed by your healthcare practitioner.
