

# NATTOKINASE PLUS™

**A nutritional supplement designed to support healthy blood flow.\***

**Nattokinase Plus™ Supports:**

- Capillary Strength\*
- Vascular Health\*
- Healthy Blood Flow\*

**The Importance of Capillaries, Veins and Blood Flow:**

**Capillaries** are tiny blood vessels between arteries and veins that distribute oxygen-rich blood to the body. Capillaries are extremely thin. The walls are only one cell thick. The network of capillaries in the human body is so extensive that if laid end to end, they would extend about 60,000 miles. Capillaries make up part of the circulatory system.

**Veins** are blood vessels that carry blood away from an organ, as opposed to arteries which carry blood toward an organ.

**Blood Flow** and good circulation are important to the entire body. An important function of blood flow is to provide adequate oxygenation and nutrition to tissues and organs. For example, blood carries fuel (oxygen and glucose) to the brain. When blood flow is interrupted or a blood vessel breaks, diminished blood flow can result.

**About the Formula:**

**Nattokinase:**

- Nattokinase is a fibrinolytic enzyme.
- A fibrinolytic enzyme is an enzyme that breaks down fibrin. Fibrin is the protein by-products of blood coagulation/clotting. Nattokinase has been shown to help reduce vessel wall thickening to support endothelial health.\*
- Supported regulation of fibrinolysis can help maintain healthy blood flow throughout the body by aiding to ensure that organs and tissue receive the blood and oxygen required.\*
- The nattokinase in this formula has high enzyme activity providing 20,000 fibrin (FU) per gram and is free of Vitamin K.

**Serratiopeptidase:**

- Serratiopeptidase is a fibrinolytic enzyme that has been shown to help break down protein debris, promoting arterial health.\* This enzyme helps maintain arterial integrity and strength.\*
- It has wide clinical use spanning over twenty-five years throughout Europe and Asia.

**Rutin:**

- Rutin is a bioflavonoid with antioxidant activity.\*
- As an antioxidant, Rutin scavenges superoxide radicals which are chemicals that are highly reactive and can oxidize other molecules.\*
- Rutin may also help maintain levels of the biological antioxidant glutathione, the master antioxidant within all cells.\*
- Healthy amounts of rutin may help strengthen the collagen structure of vein walls.\*

**Suggested Use:** As a dietary supplement, take 2 capsules daily, between meals, or as directed by your healthcare practitioner.

## Supplement Facts

Serving Size 2 Capsules  
Servings Per Container 30

Amount Per Serving	% Daily Value
Natto NSP-2™ brand	
Nattokinase (20,000 FU/g) 150 mg	*
Serratiopeptidase (120,000 U/g) 150 mg	*
Rutin 200 mg	*

\* Daily Value not established.

Other ingredients: microcrystalline cellulose, hypromellose (capsule), gellan gum, vegetarian leucine.

**Contains: Soy.**

**Warning:** If pregnant, nursing, or have blood-clotting disorders or are taking anti-coagulant medications such as Coumadin (Warfarin), do not take this product without consulting your healthcare professional.

**Caution:** Discontinue use 2 weeks prior to surgery.

VEGETARIAN / GLUTEN FREE / NON-GMO
