

# MEGA PROBIOTIC™ ND 50

## Targeted, Multi-Strain Microbiome Support for Digestive and Immune Health (Non-Dairy)\*

- Broad-spectrum probiotic formula with 9 different evidence-based strains\*
- Guaranteed to contain 50 billion microbes per capsule
- Promotes regular bowel movements\*
- Helps promote GI health\*
- Supports a balanced immune system and healthy inflammatory response\*
- Helps maintain a healthy weight\*
- Helps keep the urogenital tract healthy\*

The gut microbiota—the microorganisms that reside in your intestinal tract—are involved in your health in a surprising number of ways.\* For example, they support a regular and comfortable digestive tract, balance the immune response, and keep your mind sharp through the gut-brain axis.\*

Taking a good probiotic formula can help maintain the health of your gut microbiota and in doing so help maintain your overall health.\* That's why DaVinci® Laboratories formulated **Mega Probiotic™ ND 50**, which contains highly effective strains of nine species of microorganisms from non-dairy sources. **Mega Probiotic™ ND 50** is a targeted, evidence-based microbiome support delivering 50 billion microorganisms per capsule. Each species has an affinity for a different part of the digestive tract and a unique mechanism of action to support overall health.\*

**Mega Probiotic™ ND 50** also contains Fructooligosaccharides (FOS), a soluble fiber and prebiotic that “feeds” the good bacteria in the digestive tract.\*

### Promoting Regularity and Digestive Health\*

If you're feeling bloated or have occasional constipation, your digestive tract may need a multi-strain probiotic.\* For example, *Lactobacillus plantarum* UALp-05™, as part of a multi-strain probiotic, keeps digested material moving smoothly through the colon and boosts short-chain fatty acids, substances which promote gut and microbiome health.\*1

*Streptococcus thermophilus* UASt-09™ maintains a healthy intestinal immune response by strengthening the intestinal walls to keep unwanted substances from escaping into the circulation.\*2 In people with constipation, *Bifidobacterium longum* UABI-14™ and *Bifidobacterium bifidum* UABb-10™ promote regular bowel movements.\*3

### Multitalented Microorganisms

Probiotics go beyond the digestive tract for a much broader impact on health.\* *Lactobacillus acidophilus* UALa-01™ promotes healthy levels of body fat and visceral fat, suggesting probiotics play a role in weight management.\*4 Meanwhile, another probiotic strain in the formula, *Lactobacillus plantarum* UALp-05™, supports a healthy inflammatory response.\*5

Various species of lactobacilli also help maintain urogenital and vaginal health.\*

### Mega Probiotic™ ND 50 is recommended for:\*

- People who are lactose intolerant\*
- Occasional constipation and bloating\*
- Occasional loose stools\*
- Urinary discomfort\*
- Shedding unwanted pounds\*
- Immune system imbalances\*

**Suggested Use:** As a dietary supplement, take 1 capsule once or twice daily, between meals or as directed by your healthcare practitioner.

## Supplement Facts

Serving Size 1 Capsule  
Servings Per Container 30 or 60

Amount Per Serving	% Daily Value
