

HYALURONIC ACID

- **A vegetarian dietary supplement to support joint and connective tissue functions and skin health***

- **Recommended for:**

- Joint flexibility*
- Optimizing synovial fluid viscosity*
- Supporting cartilage health*
- Promoting healthy skin*

- **The DaVinci[®] advantage:**

- HyaMax[™] brand Sodium Hyaluronate is a low molecular weight Hyaluronic Acid (H.A.) for optimal utilization by the body*
- 40 mg of H.A. per capsule
- Combined with Lecithin and Chia (*Salvia hispanica*) seed for enhanced bioavailability*
- Vegetarian

About the nutrients:

- Hyaluronic acid (H.A. or Sodium Hyaluronate) is found throughout the body for structural support.* It is found most abundantly in cartilage, synovial fluid, skin and the fluid of the eye.
- H.A. acts as a cushion and lubricant in the joints and other tissues by helping to thicken synovial fluid, pulling water into the joints and supporting connective tissue structures.*
- H.A. is a natural moisturizing agent and is essential for the structure of the extracellular matrix which keeps the skin moist and supple.*
- H.A. acts as a space-filler in dermal layers between skin cells and produces a long-lasting skin enhancement which helps make skin soft, smooth and elastic, especially for the face and lips.*
- H.A. nourishes and hydrates collagen which is vital to maintaining the skin's layers and structures.*
- Supplementing with hyaluronic acid for skin and joint health is crucial due to decreased synthesis with aging.*

- Chia (*Salvia hispanica*) has been used historically (mainly by the Aztecs) to enhance the uptake of other herbals and natural components.* It contains protein, minerals, and alpha-linolenic acid (that can be used to produce the essential omega-3 fatty acids EPA and DHA), as well as glycoproteins and glycolipids that have gel forming qualities.*
- The gel forming properties of the Chia, in combination with soy lecithin, provide a protective coating around the H.A. molecule to support absorption.*
- Lecithin is a phospholipid found in every cell membrane. It supports cell membrane structure and helps regulate the flow of nutrients into and out of the cell.* In combination with chia it can form a gel that protects H.A. and supports the absorption process so it can be used where it is needed most.

Suggested Use: As a dietary supplement, take 1 capsule once or twice daily or as directed by your healthcare practitioner.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

Amount Per Serving	% Daily Value
Hyaluronic Acid (HyaMax [®] brand Sodium Hyaluronate) 40 mg	*
Sunflower Lecithin 100 mg	*
<i>Salvia hispanica</i> (seed) powder 100 mg	*

*Daily value not established.

Other ingredients: microcrystalline cellulose, vegetable cellulose (capsule), vegetarian leucine.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
