## Probiotics Plus Digestive Enzymes: The Secret to Your Child's Healthy Digestion

Does your child have digestive discomfort such as loose stools, tummy upset, or problems "going"? This could be a sign of a weak or imbalanced digestive system. Some children may need to support their stomach health throughout the day with supplements. Otherwise, their abdominal area doesn't feel up to par. It could mean they're going to miss school or that important soccer game. Or they might just be irritable and have trouble sleeping.

Digestive health is necessary for brain health thanks to little organisms in the gut called the microbiota. If these good bacteria in your child's gut aren't working their best, your child's brain might not be getting the support it needs to ace that test in school. Your child even needs the mighty microbiota to maintain a healthy immune system. Fortifying the immune system protects the gut, so it can handle any curve balls thrown its way.\*

The meals kids often eat aren't helping matters any. Vegetables are rich in plant enzymes that help break down food so it's easier to digest, but vegetables aren't the main feature on most children's plates.

### Chewable Kidbiotic to the Rescue\*

**chewable kidbiotic** is a great choice to maintain a healthy balance of good bacteria in a child's gut. Plus, it provides important digestive enzymes that help the body break down milk sugar, fats, proteins, and carbohydrates. These enzymes help kids' bodies absorb certain vitamins and nutrients critical for your child's health and well-being.\*

**chewable kidbiotic** comes in a delicious tropical punch flavor, and since it's chewable, it's great for younger kids who hate to swallow pills. It's also made of non-GMO ingredients. So, you can trust that it's healthy for your little ones.\*

### Digestive Enzymes for Abdominal Comfort and Improved Vitamin Absorption\*

**chewable kidbiotic** includes digestive enzymes such as lactase, bromelain, protease, and lipase to help children better use the food they eat. Lactase helps break down the milk sugar lactose. Lactase is not only for lactose intolerance, some kids can develop temporary lactose intolerance when they have diarrhea. Bromelain digests proteins. Problems digesting protein can lead to food intolerances in some kids. Protease breaks down proteins into peptides and amino acids children need for energy and brain function. Lipase helps digest fats so your child can better absorb fat-soluble vitamins and essential fatty acids. Amylase breaks down carbohydrates to fuel kids' brains, nervous systems, hearts, lungs, and muscle. The end result? Kids feel more comfortable after meals and throughout the day, and they have more brain power, energy, good mood, and nutrients for growth.\*

### Probiotic Power for Regularity and Overall Health\*

**chewable kidbiotic** supplies plenty of non-dairy probiotic power with 14 billion CFU/gram. The probiotics in the formula support regular bowel movements, abdominal comfort, brain health, immunity, and mood. It includes three strains of Lactobacilli, two of Bifidobacterium, and *Bacillus coagulans*, a probiotic for supporting abdominal comfort in kids.\*

### chewable kidbiotic is recommended for:

- Improving digestion and abdominal comfort\*
- Supporting regular and healthy bowel movements\*
- Boosting overall health of your child\*
- Enhancing the absorption of vitamins\*
- Supporting brain health and mood\*
- Maintaining healthy immunity\*

Help your child feel his or her best with this powerful probiotic and digestive enzymes supplement.

### Supplement Facts

Serving Size: 1 Chewable Tablet	
Amount Per Serving	
Calories	5
Total Carbohydrates	1 g
Proprietary Blend of Non-Dairy	
Probiotic Culture	318.75 mg
containing <i>Bacillus coagulans</i> , <i>Lactobacillus acidophilus</i> , <i>Lactobacillus bulgaricus</i> , <i>Lactobacillus rhamnosus</i> , <i>Bifidobacterium breve</i> , <i>Bifidobacterium longum</i> (14 billion CFU/g)	
Proprietary Blend of Digestive Enzymes	156.2 mg
containing Amylase (100,000 SKBU/g), Lactase (15,000 ALU/g), Bromelain (2,400 GDU/g), Lipase (15,000 FIP/g), Cellulase (6,000 CU/g), Protease (5,000 HUT/g).	
Stevia Leaf Extract	12 mg

Other ingredients: mannitol, vegetable stearate, natural tropical fruit & strawberry flavors, citric acid, silicon dioxide, orange fruit powder.

**Suggested Use:** As a dietary supplement, children 4 or older chew 1 tablet, 3 times daily, with meals, or as directed by your healthcare practitioner.
