

kidbiotic ENT

Powerful Probiotic Support for your Kids' Ears, Nose, Throat, and Mouth*

It can be upsetting when your child has nasal congestion, sore throat, or if they come home from their dental checkups with bad news. However, it doesn't always have to be this way. Scientific studies tell us that the good bacteria living in the mouth and nose are critical for health and you can promote your child's ear canal, nose and mouth health by giving them certain beneficial bacteria.*

In **kidbiotic ENT**, you'll find some of the most important probiotics for promoting the health of the ear, nose, throat, sinuses, and mouth. **kidbiotic ENT** delivers three billion beneficial organisms per chewable tablet. A powerful probiotic known as BLIS K12™ plays a starring role in the supplement. BLIS K12™ is a specific strain of friendly bacteria known as *Streptococcus salivarius* K12™. *S. salivarius* is found naturally in everyone's mouth and throat, but only a small number of lucky people have the beneficial K12 strain.*

BLIS K12™ – Your Child's Best Friend

Numerous scientific studies show that BLIS K12™ can support middle ear health. It also promotes the health of the throat and tonsils. Plus, research has found BLIS K12™ keeps the breath fresh. By crowding out other unfriendly microorganisms, it also supports a healthy immune system in the ears, mouth, and throat.*

4 More Powerful Ear-Nose-Throat Probiotics*

A blend of other powerful probiotics are found in **kidbiotic ENT**. These four probiotics are researched for their ability to sustain ear, nose, and throat health. *Lactobacillus plantarum* colonizes the throat and tonsils. *L. paracasei* is important in respiratory health in children. *L. reuteri* promotes throat health and keeps the mouth healthy and it also freshens the breath. *L. salivarius* supports the health of the middle ear and throat.*

Your Kids Will be Healthier and Happier*

Promoting ear, nose, and throat health will help your child fair better in the winter cold and throughout the year when they get exposed to germs. They can participate in outdoor activities and water sports without being held back by inconveniences like ear, nose, or throat issues. Likewise,

healthy bacteria in the mouth will encourage healthy gums and strong, beautiful teeth. Dental checkups won't be a headache anymore.*

Delicious Taste Your Kids Will Love

kidbiotic ENT is a chewable tablet. It's flavored with delicious natural strawberry and vanilla flavors, so, your kids will be thrilled to take it. Plus, this form delivers the probiotics directly to the oral cavity, where they can immediately go to work providing benefits to the mouth, throat, ears, and nasal passages.*

KidBiotic ENT is recommended for:

- Middle ear health*
- A healthy and comfortable throat*
- Supporting respiratory health*
- Freshening breath*
- Healthy, strong teeth and gums*
- Immune support of the mouth, ear, nose, and throat*

If you want your child to have healthy ears, mouth, throat, and sinuses, **kidbiotic ENT** is a superior choice for an oral probiotic.
