

# migrashield\*

Restore Your Child's Cranial  
Comfort with This Powerful  
Butterbur Extract\*

Occasional head discomfort gets in the way of the fun things in life. It might be discomfort of one or both sides of the head, sensitivity to light or sound, or a throbbing sensation. If your child's head isn't healthy and happy, it can keep them from doing well in school. It holds them back from social and sporting events that they love. More importantly, you hate to see your little one suffer this way. But there is something you can do to help.\*

## Blood Vessel Tone Is the Key to Kids' Comfort\*

The butterbur (*Petasites hybridus*) in Little DaVinci's **migrashield\*** supports the tone of blood vessels in the head. It keeps them pliable so blood can flow smoothly. When your child has healthy blood flow, it causes cranial relaxation. That makes for a healthy, happy head. Butterbur doesn't just improve blood flow in the head. It also promotes a healthy inflammatory response, which leads to a more comfortable and healthy head.

## Well-Researched and Suitable for Children\*

There are a lot of studies showing butterbur works. Plus, the patients' well-being improved and the butterbur was found to be suitable for kids.\*

Some preparations of butterbur are known to contain a potentially harmful natural substance called pyrrolizidine alkaloids (PA). Don't worry. DaVinci® Laboratories has you covered. The Butterbur in migrashield\* has been tested to verify that it is free of PA.

## Shielding Your Child against Environmental Irritants\*

Butterbur encourages healthy function of mast cells. It helps to calm down your child's immune response to normally harmless things like pollen or foods. That is why butterbur is useful for supporting your child's respiratory health in the spring, summer, and fall.\*

## Migrashield\* is recommended for:

- Supporting cranial comfort\*
- Maintaining pliable blood vessels and healthy blood flow in the head\*
- Healthy inflammatory response\*
- Seasonal respiratory support\*

Soothe your child's head and respiratory tract with Little DaVinci's **migrashield\***.

## Supplement Facts

Serving Size 1 ml	
Total Carbohydrates	<1 g
Butterbur ( <i>Petasites hybridus</i> )	
Whole Herb Extract	
(Pyrrolizidine alkaloids Free)	50 mg
Yielding Petasins 7.5 mg	

Other Ingredients: glycerin, water, natural flavors, malic acid, citric acid, rosmarinic acid.
