Settles the Brain, Relaxes the Body, and Leads to a Good Night's Sleep for Your Little One*

Does your child seem restless, nervous, or "wired?" Maybe your little one can't concentrate on homework, or getting out of the house on time is nearly impossible. By bedtime, your child may be overtired and the last thing he wants to do is crawl under the covers. A child that is wound up all the time is missing out on joyful moments of calm contentment, and mom and dad are, too. You want your child to be at ease, but brain chemicals called neurotransmitters don't always cooperate. These brain chemicals need to be perfectly balanced for your child to stay calm and relaxed. Stress can knock these neurotransmitters out of sorts, and in the modern world, kids face a lot of stress.*

The Secret to a Calm Day and Peaceful Night*

Calm is Little DaVinci's all-natural solution for parents who need help keeping their kids relaxed and at peace even during the most stressful of times. It contains L-Theanine, a component of green tea that helps settle the brain. This amino acid balances brain chemicals important for calm behavior. L-Theanine also triggers the production of alpha brain waves, which promote deep relaxation and mental alertness—without causing drowsiness. Plus, L-Theanine boosts levels of other calming amino acids such as dopamine, GABA, and tryptophan. The result? Less irritability and more peace around your house.*

What's more, L-Theanine promotes a healthy response to stress, and because it stops racing thoughts that interfere with a good night's sleep, L-Theanine is also great for making sure your little one is out like a light at bedtime—and throughout the night.*

A Fun and Powerful Delivery System

By using a liposomal delivery system, L-Theanine can immediately get to work calming your child, without being broken down in the stomach first. Plus, it's easy to administer the right serving, thanks to the spray bottle. It's a lot more fun than taking a pill, and kids love the natural fruit punch flavor. It's sweetened with stevia, too, so you don't have to worry about extra sugar intake.*

Little DaVinci Calm is recommended for:

- Promoting calm and relaxation in kids*
- A good night's sleep*
- Supporting your child's mental focus and alertness*
- A healthy response to stress*
- Balancing neurotransmitters involved in relaxed behavior*
- Reducing irritability*

Calm your child's uneasiness so that they can take advantage of the peaceful moments in life and you can, too.*

Supplement Facts

Serving Size 0.6 ml (3 Sprays)	
Total Carbohydrates	<1 g
