DAILY OR AS NEEDED

Composure™ Pro is recommended for cats and dogs that require advanced behavioral and cognitive support. Liquid formula is designed for simple administration with easy fill syringe included.

LIQUID FORMULA

RECOMMENDED FOR:

- » Behaviors caused by stress such as hyper-attachment, eliminating in the house, destruction, panting, etc.
- » Thunderstorms, fireworks and parties
- » Vet visits
- » Separation anxiety
- » Kenneling
- » Traveling

Composure™ Pro is recommended for cats and dogs that require advanced behavioral and cognitive support. Liquid formula is designed for easy administration in pets that are fussy eaters.

INGREDIENTS OF INTEREST:

Colostrum Calming Complex® Biopeptide Blend

- Colostrum Calming Complex® Biopeptide Blend is a patented mixture of bioactive proteins proven to have calming and anxiolytic properties. It contains proline-rich proteins, special monosaccharides, and specific fatty acids that work together to enhance the calming activity of the colostrum fraction. These molecular precursors support the calming response by normalizing cognitive and brain functions that are associated with excessive brain activity.
- Colostrum Calming Complex® Biopeptide Blend is produced from a special microfiltration process of certified bovine colostrum. This carefully monitored process assures that the bioactive components are separated and isolated without the application of denaturing heat or physical stressor.

L-Theanine (Suntheanine® Brand)

- Suntheanine® brand L-Theanine is a patented dietary supplement for stress reduction and relaxation.

- Clinical trials have shown that Suntheanine® promotes relaxed behavior without drowsiness, as indicated by an increase in alpha brain waves and a decrease in beta brain wave activity.** Studies have demonstrated that Suntheanine® is effective in helping dogs and cats deal with separation anxiety, fear behavior, and environmental stressors.†

Tryptophan

- Tryptophan is an essential amino acid known for its role in the production of nervous system messengers, especially those related to relaxation, restfulness, and sleep. It is required for the production of serotonin, which is a chemical that acts as a calming agent in the brain and plays a key role in sleep efficiency.

Thiamine

- Thiamine (vitamin B1) helps manage stress and reduce irritability. Thiamine has been shown to affect the central nervous system to help calm and soothe anxious animals. A lack of thiamine can cause mental confusion, muscular weakness, muscle spasms, nervousness, reduced appetite, or weight loss during periods of stress.

DIRECTIONS FOR USE:

Shake well before each use.

Under 25 lbs: Give 2.5 mL daily
25–49 lbs: Give 5 mL daily
50–75 lbs: Give 7.5 mL daily
76 lbs and over: Give 10 mL daily

During Times of Increased Stress:

It is safe to double the above amount as needed.

PRODUCT FACTS:

Active Ingredients Per 2.5 mL:

Thiamine (Vitamin B1)	134 mg
L-Tryptophan.	75 mg
Colostrum Calming Complex® Biopeptide Blend.	22 mg
L-Theanine (Suntheanine® Brand)	21 mg

Inactive Ingredients: cornstarch, glycerin, guar gum, maltodextrin, non-fat milk solids, silicon dioxide, sorbic acid, soy lecithin, sucrose, vegetable oil, water.

PROTEIN MIN	7.03%	FAT	42.87%	FIBER	22.84%	ASH MAX	26.27%	CARBS	0%	CALORIES PER 2.5 ML	10
