

# GLYCOFLEX<sup>®</sup> » +PLUS

Glucosamine, Chondroitin, MSM, Antioxidants, plus Perna Mussel for Medium and Large Dogs

**GlycoFlex<sup>®</sup> Plus** joint supplement for dogs provides clinically proven joint support for working dog breeds, competitive and senior dogs.

When your dog gets up more slowly to meet you at the door, you know he's not just tired. It's time for added joint support.

**GlycoFlex<sup>®</sup> Plus**, an advanced joint support supplement for dogs of any age, is clinically proven to increase hind leg strength up to 41% in just four weeks.\*

**GlycoFlex<sup>®</sup> Plus** is a high quality joint support product that maintains comfort and mobility for working dog breeds, competitive and senior dogs. This new formula for hip and joint care includes more active ingredients than other leading brands including glucosamine and chondroitin as well as perna and DMG for maximum absorption and effectiveness, all in a delicious bacon-flavored chew.

## About our ingredients:

- » GlycOmega™ brand *Perna canaliculus* is a green-lipped mussel from an exclusive New Zealand source. Unlike Perna extract-based products and mussel powders, which may lack important fatty acids and other bioactive components (e.g. defatted powders or extracts), the entire organism is utilized in GlycOmega™ Perna. All **GlycoFlex<sup>®</sup>** products are formulated with GlycOmega™ Perna.
- » DMG is naturally produced in your pet's body. It supports physical and mental energy levels, efficient oxygen utilization in tissues, and it acts as an antioxidant to maintain joint health.

- » Glucosamine has been shown to support the production of glycosaminoglycans (GAGs) within the cartilage matrix and synovial fluid. As your dog ages, there is a decrease in the production of GAGs, which can result in joint stress, thinning of synovial fluid, and the breakdown of connective tissue. Glucosamine also supports bladder and urinary tract health by supporting the integrity of the mucosal lining.
- » MSM is a source of organic sulfur. It supports the structure of joints and connective tissue. Increased availability of MSM is linked to comfort and mobility, as well as the support of collagen production.
- » Manganese is required for the formation of collagen, GAGs, and proteoglycans, all of which support required cartilage integrity. A lack of manganese can lead to inefficient production of GAGs within the joints.

## Antioxidants:

- » Vitamin C
- » Vitamin E
- » Grape Seed Extract
- » Selenium
- » L-glutathione

The antioxidants in our formula help support immune system response, proper detoxification function, free radical neutralization, as well as provide support for a healthy inflammatory response.

## ACTIVE INGREDIENTS PER 2 CHEWS:

Glucosamine HCl (Shrimp and Crab) . . . . . **1000 mg**  
 Methylsulfonylmethane (MSM) . . . . . **1000 mg**  
*Perna canaliculus* (GlycOmega™ brand Green-Lipped Mussel) . . . . . **600 mg**  
 Chondroitin Sulfate (Porcine) . . . . . **400 mg**  
 N,N-Dimethylglycine HCl (DMG) . . . . . **100 mg**  
 Vitamin E (dl-alpha Tocopheryl Acetate) . . . . . **50 IU**  
 Vitamin C (L-Ascorbyl 2 Polyphosphate) . . . . . **24 mg**  
 Manganese (Mn Proteinate) . . . . . **10 mg**  
 Grape Seed (*Vitis vinifera*) Extract . . . . . **5 mg**

L-Glutathione . . . . . **2 mg**  
 Selenium (Na Selenite) . . . . . **0.002 mg**

**Inactive Ingredients:** arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, natural bacon flavor, natural smoke flavor, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, soy lecithin, vegetable oil.

## PRODUCT DETAILS:

GlycoFlex<sup>®</sup> Plus is a delicious bacon-flavored chew, recommended for dogs of all ages needing advanced joint support. This powerful combination of ingredients helps cushion joints, promote cartilage building and alleviate discomfort caused by normal daily activities.

## DIRECTIONS FOR USE:

### Initial (4 - 6 Weeks):

31 - 60 lbs: 2 chews daily.  
 61 - 100 lbs: 4 chews daily.  
 101 lbs and over: 5 chews daily.

### Maintenance (After initial period):

31 - 60 lbs: 1 chew daily.  
 61 - 100 lbs: 2 chews daily.  
 101 lbs and over: 3 chews daily.

If giving more than 1 chew daily, divide between AM and PM.

# PERIO SUPPORT » A daily powdered formula for dental health and hygiene support

**Perio Support** is a dental health formula designed to support your pet's periodontal health in a convenient delivery system.

**Perio Support** is available in a tasty, aromatic powder that is sprinkled on top of your pet's food to alleviate the mess and hassle of brushing.

### Dental Health:

- » Perio Support reduced the prevalence of plaque by 20% and tartar by 18% in a double-blind testing of 20 dogs in just 28 days\*
- » Dental health is important to the overall health of your pet because it affects the health of the heart, lungs and kidneys, which is why it is important to provide your pet with proper daily dental care before there is a problem.
- » **Perio Support** is formulated specifically for use between routine veterinary dental cleanings to help maintain clean teeth, freshen breath, control plaque formation, and support gum health. The targeted and quick delivery system helps keep your pet's mouth healthy as part of a daily periodontal care program.

### About the ingredients in **Perio Support**:

- » Natural Zeolites are unique minerals that help prevent plaque from forming and sticking to teeth.

- » Zinc penetrates plaque on the teeth and oxidizes it, resulting in less plaque formation.
- » Cranberry is a source of antioxidants rich in bioflavonoids that support gum tissue health. They also help interfere with bacteria that can lead to plaque buildup and tissue destruction.
- » Taurine works with zinc to support gum tissue health and strength. Strong gum tissue is important since bacteria grows on dead tissue.
- » Lactobacillus acidophilus help support a healthy bacterial balance in the mouth. They help the body displace unhealthy plaque-causing bacteria to support strong gums and fresh breath.
- » *Yucca schidigera* Extract is an herb that helps inhibit enzymes that break down the structural integrity of gum tissue.
- » Vegetable Fats ensure product palatability, help ingredients adhere to the teeth, and provide essential fatty acids that support gum health.

### **Perio Support** is:

- » Easy to use
- » Easy to remember
- » A convenient way to support daily dental health

### PERIO SUPPORT POWDER
