

CANINE PLUS™ SENIOR MULTIVITAMIN »

Geriatric formula to support immune, heart, liver, eye, and brain health

Canine Plus™ Senior Multivitamin is specifically formulated to focus on geriatric dogs by combining a balance of vitamins, minerals, essential fatty acids, antioxidants and other ingredients to maintain the physical and mental well-being of senior dogs. As dogs age, their nutritional needs change. **Canine Plus™ Senior Multivitamin** features the ingredients needed to help keep your senior dog in peak condition.

Canine Plus™ Senior Multivitamin incorporates important components necessary to support circulation, cognitive function, and immune health of your senior dog.

This formula includes:

- » Vitamins A, C, D3, and E as well as a complete stress B complex to complement all commercial or home-made diets
- » Vital minerals to support proper composition of body fluids, and the formation of bone and red blood cells.
- » Omega 3 and 6 (Linoleic Acid) to help animals achieve a soft, shiny, heathy coat.
