

# CANINE PLUS™ MULTIVITAMIN »

A comprehensive multivitamin with over 25 ingredients to support peak condition in dogs of all sizes and ages

**Canine Plus™ Multivitamin** for dogs provides the added nutrients, vitamins and antioxidants that are often not found in traditional commercial dog foods. Formulated with a balance of amino acids, fish oil omegas and B vitamins these chews are designed to help maintain the overall physical well-being of your dog, no matter his size, age or breed. Our **Canine Plus™ Multivitamin** is also an excellent addition to homemade and raw diets offering complete daily nutritional support for your dog.

**Canine Plus™ incorporates over 25 balanced ingredients that are not found in most dog foods or ordinary supplements, including:**

- » Antioxidants (A, C, E and selenium) to fight free radical damage and support the immune system
- » A complete and balanced stress B complex to support mood, memory and cellular metabolism.
- » EPA and DHA to support healthy skin and coat, and normal brain function.
- » Vital minerals to support proper composition of body fluids, formation of red blood cells, bone structure support, and to help maintain healthy nerve function

# PERIO SUPPORT » A daily powdered formula for dental health and hygiene support

**Perio Support** is a dental health formula designed to support your pet's periodontal health in a convenient delivery system.

**Perio Support** is available in a tasty, aromatic powder that is sprinkled on top of your pet's food to alleviate the mess and hassle of brushing.

### Dental Health:

- » Perio Support reduced the prevalence of plaque by 20% and tartar by 18% in a double-blind testing of 20 dogs in just 28 days\*
- » Dental health is important to the overall health of your pet because it affects the health of the heart, lungs and kidneys, which is why it is important to provide your pet with proper daily dental care before there is a problem.
- » **Perio Support** is formulated specifically for use between routine veterinary dental cleanings to help maintain clean teeth, freshen breath, control plaque formation, and support gum health. The targeted and quick delivery system helps keep your pet's mouth healthy as part of a daily periodontal care program.

### About the ingredients in Perio Support:

- » Natural Zeolites are unique minerals that help prevent plaque from forming and sticking to teeth.

- » Zinc penetrates plaque on the teeth and oxidizes it, resulting in less plaque formation.
- » Cranberry is a source of antioxidants rich in bioflavonoids that support gum tissue health. They also help interfere with bacteria that can lead to plaque buildup and tissue destruction.
- » Taurine works with zinc to support gum tissue health and strength. Strong gum tissue is important since bacteria grows on dead tissue.
- » Lactobacillus acidophilus help support a healthy bacterial balance in the mouth. They help the body displace unhealthy plaque-causing bacteria to support strong gums and fresh breath.
- » *Yucca schidigera* Extract is an herb that helps inhibit enzymes that break down the structural integrity of gum tissue.
- » Vegetable Fats ensure product palatability, help ingredients adhere to the teeth, and provide essential fatty acids that support gum health.

### Perio Support is:

- » Easy to use
- » Easy to remember
- » A convenient way to support daily dental health

 **VetriSCIENCE**  
Laboratories

Probiotic Everyday for dogs features patented probiotics and prebiotic fiber to support digestive health, regularity and immune function.

**Probiotic Everyday** is an effective combination of patented probiotics and prebiotic fiber that helps balance gut microbiota to support digestive and immune health. This daily probiotic is delivered in a tasty duck-flavored chew that's suitable for dogs with dietary sensitivities.

**About Probiotics:**

Probiotics are beneficial microorganisms that help control the critical balance in the digestive system and prevent the growth of undesirable microorganisms. Balance within the digestive system is essential to maintain a healthy GI tract, protect against disease, improve digestion, and enhance overall health.

**About BC<sup>30™</sup>**

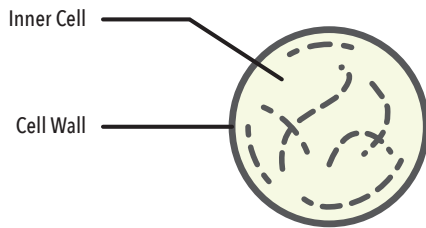

BC<sup>30™</sup> is a safe, natural and highly-stable probiotic ingredient backed by over 25 studies demonstrating its effectiveness in supporting digestive and immune health. BC<sup>30™</sup> is now the first and only probiotic ingredient to be non-GMO verified by the non-GMO Project. In addition BC<sup>30™</sup> is the first probiotic to show protein utilization benefits, and it's FDA GRAS and USP Monograph listed.

**About FOS (Fructooligosaccharides):**

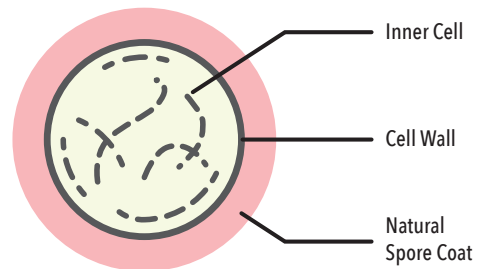

FOS are soluble fibers and prebiotics that support the growth of beneficial microbes in the intestinal tract. They have been shown to inhibit the growth of harmful bacterial species. Because FOS is not digested by the body, it will increase the amount of material in the intestinal tract and stimulate the elimination process to support regularity.

**VEGETATIVE VS. SPORE FORMING CELL**

- More susceptible to dying or inactivity due to manufacturing processes and stomach acid
- May not survive in products that are shelf-stable, frozen, or heated

- + Naturally protective outer layer makes them highly stable
- + Survive the low PH of the stomach
- + Survive in room temperature conditions
